

Meeting Notes with Kristy - Tuesday, September 10

Project Scope Review

- We discussed the current status of the project, specifically the decision to shift our project direction towards data visualization, while still working on predictions using other methods. Additionally, we successfully merged the datasets.
- Despite these challenges, Kristy is comfortable with the current project scope.
- The team has agreed to proceed with the current scope.

Timeline Update

Kristy will not be available until next week.

Next Steps

The team will proceed with the revised project scope.
